

GENERAL QUESTIONS:

1. WHAT ARE INFUSED VENEER PANELS?

Infused Veneer is a revolutionary product immersing graphics and imagery onto real wood veneer.

2. WHAT SIZES ARE AVAILABLE?

Panels come in a standard size of 48" w x 96" h x 3/4" d.

3. WHAT IS THE CORE MATERIAL?

The panels use CLASS A Fire Rated MDF with NAF (No Added Formaldehyde).

4. CAN PANELS BE INSTALLED OUTDOORS?

No, Infused Panels are meant for interior use only.

FINISHES:

5. HOW MANY FINISHES ARE THERE?

A total of 3 real wood veneer finishes are available. A3 Plain Slice, Maple, Walnut, or Cherry Veneer. Matching edge banding is provided to all sides, upon request.

6. DO WE OFFER CUSTOM FINISHES?

Not at this time. However, for larger programs, custom options may be considered on a case-by-case basis.

7. DO WE OFFER CUSTOM IMAGING?

Yes, with a minimum order quantity and client approved artwork. Contact sales for Art Requirements.

8. DO WE OFFER SAMPLES FOR APPROVAL?

We offer 6X6 wood veneer material samples. Clients are encouraged to purchase color samples for imagery approval prior to production. Sample costs will be rebated at the time of ordering.

9. ARE THE INFUSED PANELS EASY TO INSTALL?

All panels ship with low-profile aluminum z-clips pre-attached for easy installation.

10. WHAT IS THE WEIGHT OF EACH PANEL?

All panels are approximately 120-130 lbs.
